Javascript, jQuery, Node
Git, Subversion
Photoshop, Illustrator
Final Cut Pro, After Effects

Education

College For Creative Studies
Detroit, Michigan
Bachelor of Fine Arts
in Animation & Digital Media

October 2013 – Present

Front End Developer / UX Designer
StudyBlue

Worked on UX designs and created most of the CSS for a major site redesign. Shifted responsibilities towards more front end as the need arose later in the redesign project. Implemented features using jQuery and Backbone.

February 2012 – October 2013

Front End Developer
Vodori

Worked in large and small teams creating markup, styling, and functionality for various client sites. Clients included multiple large health care businesses and Life Fitness. Used Less and Dojo on a daily basis and helped others understand the importance of responsive design.

July 2011 – February 2012

Front End Developer
AEO Design

Worked with a designer to develop static and Wordpress based sites for small, local businesses. Translated PSD designs to code. Oversaw many aspects of the business from initial client meetings to teaching clients how to use their new sites.

March 2009 – September 2011

Animation & Design Specialist
Magna Powertrain USA

Lead designer and animator working on a small marketing team. Handled creation of trade show brochures, graphics, and videos. Initiated and implemented a complete redesign of the quarterly company magazine.
